### **Report on Awareness Program on Quality of Drinking Water**

<b>Activity</b>	<b>Awareness Program on Quality of Drinking Water</b>
<b>Date</b>	<b>27.01.2020</b>
<b>Place</b>	<b>Selapadu Village Primary school</b>
<b>No. of participants</b>	<b>116</b>
<b>Academic Year</b>	<b>2019-20</b>

Poor quality of drinking water due to pollution causes many health problems for mankind. It is therefore essential to filter the polluted water to improve the quality of drinking water, thereby one can prevent diseases yet to be caused. The water at most of the villages nearby the institute is polluted.

To provide the quality drinking water, NSS unit of VLITS conducted a program on "Awareness Program on Quality of Drinking Water" at Selapadu school campus on 27.01.2020. 116 students actively participated in this program to create awareness on water among the school students and they are well aware of the benefits of quality of drinking water. NSS coordinator Mr. Venkata Ramana, was congratulated the students who actively participated in this program.
