Awareness on CYBER Security: Webinar

Activity	A Webinar on CYBER Security
Date	13.08.2020
Place/Mode	Webinar-online mode
No of participants	77
Academic Year	2020-21

VLITS has conducted awareness on Cyber Security on 13/08/2020. The objective of this program is to create awareness on how to secure the personal data. This program also focused on how to arrange security codes for the emails. It also discussed about the types of securities like information, operational etc. and also explained about the ethical hacking. Any data which we create for any purpose should be saved and utilized in a proper way. It should not be misused at any cost. In order to satisfy the motto of any information created Cyber Security is important. All together 77 students along with the faculty attended for the awareness program and our Principal Sir gave his valuable inputs for the students and faculty.
