Report on Bio-Gas Energy Harvesting Program

Activity	Awareness on Bio-Gas Energy Harvesting Program
Date	05.01.2022
Place	VLITS,-- Vadlamudi
No of participants	68
Academic Year	2021-22

In addition to serving as a fuel source, biogas technology is crucial for the full exploitation of biomass in forestry, animal husbandry, fisheries, agricultural economies, environmental protection, agricultural recycling, and improving hygienic conditions in rural regions. In this bio gas power plant awareness program 68 students were participated from the various departments. In charge of Bio gas power plant Mr. Nagaraju explained about the importance of Biogas and it uses. NSS coordinator Mr. P. Venkata Ramana appreciated all the students.
